## MEMBERSHIP

As urbanization and development have exploded in recent years, our salmon and their habitat have become increasingly affected by pollutants and flash flooding.

The Serpentine Enhancement Society's job is not to replace nature, but to protect and maintain the natural watershed.

Conservation methods have been adopted to increase dwindling salmon populations. Damaged rivers are being restored by replacing eroded banks and stripped spawning grounds are being re-laid with gravel. Salmon eggs and fry are being nurtured, then released into the wild.

The hatchery is working with schools to provide educational opportunities for children, and all the community is being encouraged to have hands-on volunteer experience.

We encourage each one of you to take part or become a community sponsor in the stewardship of this precious and fragile resource.

The membership year runs from July 1 to June 30. Memberships paid after Jan 1 are half-price and expire the following June 30. Memberships paid after May 1 will be 100% and applied to the following membership year. Membership meetings are held on the second Wednesday or Thursday of each month from August to May (excluding December). Schedule to be posted.

Please complete data as required. Email address is requested for future mailings.
